

## PROTECT YOURSELF DURING 2022

# MEDICARE OPEN ENROLLMENT

### Screen Phone Calls

If anyone, with whom you had no scheduled appointment, calls and requests personal or private information (Medicare number, social security number, bank or credit card information), **HANG UP!**

### Be Wary of Adver- tisements

Be cautious about changing your insurance plan based on advertisements. Any advertised benefits shown in Medicare insurance ads and mailings could be available where you live. Get the facts in writing **BEFORE** signing any documents.

### Ensure Your Plan Is Right For You

Before you sign up, reach out to your doctors to verify they are in the plan network and check if your prescription drugs are covered.

### Learn About Medigap and Medicare Advantage

Even if someone promises that you can keep your Medigap plan (supplemental plan) and have a Medicare Advantage plan, that is against the rules and not helpful to have both forms of insurance.
