**Purpose:**

The purpose of this policy is to ensure appropriate access to services for Cigna customers by establishing national accessibility standards and a national methodology for assessing performance against those standards.

**Policy Statement:**

Contracted providers are required to provide customers access to appointments for regular and routine, urgent/emergent, and after-hours care.

**Definitions:**

For purposes of this policy, “customer” means an individual participant or member.

HMO Products: Customers insured in the HMO, HMO/POS, HMO Open Access, and HMO POS Open Access products.

Insured Products: Customers insured in the PPO, EPO, OAP, OAP IN, Network, Network POS, Network Open Access, Network POS Open Access, LocalPlus®, Cigna Connect, and Cigna SureFit® products.

CAHPS® (Consumer Assessment of Healthcare Providers and Systems): A registered trademark of the Agency for Healthcare Research and Quality (AHRQ), which is a public-private initiative developed to survey customers’ experiences.

Medical Primary Care Provider (PCP): A physician duly licensed to practice medicine who is contracted with Cigna to provide covered services in the field of General Medicine, Internal Medicine, Family Practice, and Pediatrics and has agreed to provide primary care services to Cigna Contract customers in accordance with Cigna Program Requirements. Unless specified by state mandate and contractually agreed to by the Provider and Cigna, Obstetricians and Gynecologists are defined as specialty care providers only and cannot act as PCPs. See Attachment B for state mandates allowing additional Providers to provide primary care services.

For purposes of this policy, “Cigna” refers to certain health care related operating subsidiaries of Cigna Corporation and Evernorth Health, Inc. Such operating subsidiaries include Cigna Health and Life Insurance Company, Cigna Health Management, Inc., Cigna Behavioral Health, Inc., Evernorth Care Solutions, Inc., Evernorth Direct Health, LLC and HMO or service company subsidiaries of Cigna Health Corporation and Cigna Dental Health, Inc.

# Cigna

Medical Specialty Care Provider (SCP): A physician, who has advanced education and training in one clinical area of practice, who is duly licensed to practice medicine and who is contracted with Cigna to provide specialty care services to Cigna Contract customers in accordance with Cigna Program Requirements.

- A High-Volume SCP provides services to the largest segment of the membership, inclusive of the OB/GYN Specialty.
- A High-Impact SCP treats conditions with high mortality and/or high morbidity rates, and may require significant resources for appropriate treatment. An Oncologist is one High-Impact SCP type.

Behavioral Health Provider: Both prescriber and non-prescriber providers who are duly licensed to practice, and who are contracted with Cigna and agree to provide behavioral health services to Cigna customers in accordance with Cigna Program Requirements.

- Prescriber: Behavioral health provider who is licensed to prescribe medication for a customer.
- Non-Prescriber: Behavioral health provider who is not licensed to prescribe medication for a customer.

**State/Federal Compliance:** State-specific mandates will override national standards when applicable. For state-specific Network accessibility requirements, please refer to the Compliance Common Bulletin named "Provider Networks: Network Adequacy and Service Area" Common Bulletin." This bulletin can be found by going to iComply, (link at end), and clicking on the View Common Bulletins hyperlink. These state requirements are noted in Attachment A.

## **Procedure(s):**

Annually, Cigna measures accessibility of care to behavioral (prescriber and non-prescriber), PCP, and High-Impact/High-Volume SPC providers using findings from customer surveys and complaints, and by measuring results against the accessibility standards and metrics outlined below. Cigna uses the continuous quality improvement (CQI) process to identify opportunities for improvement.

## CQI Process

- A. Collect/measure data
- B. Evaluate results
- C. Identify possible root causes or barriers
- D. Select opportunities
- E. Plan/implement intervention/corrective actions
- F. Determine intervention effectiveness

## Accessibility Standards and Metrics

- A. Medical:
  1. Emergency: Immediately
    - Medical, surgical, hospital, and related health care services and testing, including ambulance services, which are required to treat a sudden, unexpected onset of a bodily injury or serious sickness that could reasonably be expected by a prudent layperson to result in serious medical complications, loss of life, or permanent impairment to bodily functions in the absence of immediate medical attention. Examples of emergency situations include uncontrolled bleeding, seizures or loss

# Cigna

of consciousness, shortness of breath, chest pains or severe squeezing sensations in the chest, suspected overdose of medication or poisoning, sudden paralysis or slurred speech, burns, cuts, and broken bones.

2. Urgent: Within 24 hours. (Urgent medical needs are those that are not emergencies but require prompt medical attention, such as symptomatic illness and infections.)
    - Medical, surgical, hospital, and related health care services and testing which are not Emergency Services, but which are determined by Cigna in accordance with generally accepted medical standards, to have been necessary to treat a condition requiring prompt medical attention. This does not include care that could have been foreseen before leaving the immediate area where the customer ordinarily receives and/or is scheduled to receive services. Such care includes but is not limited to: dialysis, scheduled medical treatments or therapy, or care received after a Provider's recommendation that the customer should not travel due to any medical condition.
  3. Regular and Routine Care: Within 14 days, or within the timeframe specified by the treating physician
    - Preventive and primary care for non-urgent conditions. Non-urgent conditions are conditions that do not substantially restrict normal activity but could if left untreated (e.g., chronic disease).
  4. After-hours care: Provider provides 24-hour coverage
    - There is a Provider on call twenty-four (24) hours a day to provide emergency and urgent medical care for all customers
- B. Behavioral Health:
1. Life-Threatening Emergency: Immediately
    - A situation is a life-threatening emergency:
      - If there is sufficient evidence that there is an **immediate danger** to the customer or others, by active means, such as suicidality, homicidally, or violence, by virtue of mental illness or substance use.
      - If unable to make an access decision of non-life-threatening emergency appointment need (i.e., if one cannot rule out that the presenting situation may be a life-threatening emergency), then the situation must be treated as if it might be a life-threatening emergency.
      - If a customer, provider, or other Cigna Behavioral Health representative, acting reasonably, believes that a life-threatening emergency situation exists.
  2. Non-Life-Threatening Emergency: within 6 hours
    - A situation is a non-life-threatening emergency:
      - If there is sufficient evidence that there may be an immediate danger posed to the customer or others, by active or passive means, such as suicidality, homicidally, physical neglect/worsening of a medical condition, or impaired judgment, by virtue of mental illness or substance use.
      - If unable to make an access decision of urgent appointment need, due to insufficient information (i.e., if one cannot rule out that the presenting situation might be a non-life-threatening emergency), then the situation must be treated as if it might be a non-life-threatening emergency.
      - If a customer, provider, or other Cigna Behavioral Health representative, acting reasonably, believes that a non-life-threatening emergency situation exists.
  3. Urgent: within 48 hours

# Cigna

- A situation is urgent:
  - If there is sufficient evidence that the customer represents a potential risk of danger to the welfare of self or others, but is not in any immediate danger.
  - If there is evidence that the customer's situation is not emergent, (life-threatening or non-life-threatening emergent appointment needs), but the provider is unable to determine that the customer's situation is routine.
  - The primary difference between emergent (both life-threatening or non-life-threatening emergent appointment needs) and urgent is that, in an emergent situation, customers are or may be an immediate danger to themselves or others, whereas in an urgent situation, customers are viewed as being at risk (vs. life threatening) regarding their own or others' welfare, but do not pose an immediate danger to themselves or others.
- 4. Routine: within 10 working days for an initial visit, within 30 days for routine follow-up care
  - A situation is routine:
    - If there is sufficient evidence that the customer is in need of behavioral services, but represents no obvious risk of danger to the welfare of self or others.
    - If there is sufficient evidence that the customer's situation is not emergent, (life-threatening or non-life-threatening emergent) or urgent.
    - Although customers with chronic medical disorders but without evidence of medical deterioration may generally be considered routine, there may be times when there is reason to believe that their health condition(s) will be greatly impacted by their present behavioral disorder. In those cases, their appointment access needs may be considered urgent or life-threatening/ non-life-threatening emergent.
- 5. Office Waiting Times: Customers are seen within 15 minutes of their scheduled appointment time unless the appointment was mutually rescheduled.
- 6. Telephonic Access Standards:
  - Customers will reach a non-recorded voice within an average of 30 seconds or less.
  - Abandonment rates will not exceed 5% at any given time.
  - 80% percent of calls will be answered within 30 seconds.

## Attachment A - Comparison of State Appointment Standards to Cigna Standards

\*Indicates requirements that are more stringent than Cigna standard

### Arizona (HMO)

- Preventive Care within 60 days
- Routine Care within 15 days
- Specialty Care within 60 days of the enrollee's request or sooner if medically necessary

### California

- The following CAHPS® questions are used to monitor compliance with CA requirements.

Access Standard/Requirement	CAHPS® Question
• Urgent care – authorization required – 96 hrs	CAHPS® Q4
• Urgent care – no authorization required – 48 hrs	CAHPS® Q4
• Non-urgent primary care – 10 bus days*	CAHPS® Q6

- **PROVIDER SATISFACTION SURVEY QUESTION** – The following question has been added to the Provider satisfaction survey (fielded nationally) for CA Providers, in order to assess a Provider's satisfaction with a plan/delegated Provider's referral and authorization requirements that can impact timely access to services. The results of this question are incorporated into the annual CA Access report.

The state 'Timely Access to Non-Emergency Health Care Services Regulation' requires health care service plans to maintain an adequate Provider network to ensure patients receive timely care as appropriate for their condition. Based upon this standard, please indicate whether you are satisfied with the following: [using a scale of 1–4, 4 being very satisfied and "not applicable"].

- a. The referral and/or prior authorization process necessary for your patients to obtain covered services
- b. Access to urgent care
- c. Access to non-urgent primary care
- d. Access to non-urgent specialty services
- e. Access to non-urgent ancillary diagnostic and treatment services

Once the CA CAHPS® Access reports have been produced by the national team, the California Provider lead for Accessibility monitoring will update the report with member complaints by network (to be obtained from the CA Grievance Officer), the Industry Collaborative Effort's Provider Appointment Availability Survey Results (which must be broken out by Provider group, to derive a "rate of compliance"), the Provider satisfaction survey question (noted above) results, and OAP/PPO Provider monitoring to measure availability of office hours one night a week until 10:00 p.m. or a half-day on Saturday. Opportunities for

# Cigna

improvement will be identified, and a Corrective Action Plan developed with leaders from network management, the General Managers (or their delegate[s]), and at least one Medical Director. The Provider Services Access lead will present the full CA Access report annually to the Service Advisory Committee. The report will be filed with the Department of Managed Health Care (DMHC) (HMO regulator) annually in March, by the regulatory compliance reporting team.

- Urgent care appointments for services that do not require prior authorization within 48 hours
- Urgent care appointments for services that require prior authorization within 96 hours
- Non-urgent appointments for primary care within 10 business days
- Non-urgent appointments with specialist physicians within 15 business days
- Non-urgent appointments with a non-physician mental health or substance use disorder care provider within 10 business days
- Non-urgent appointments for ancillary services for the diagnosis or treatment of injury, illness, or other health condition within 15 business days
- The applicable waiting time for a particular appointment may be extended if the referring or treating provider, or the health professional providing triage or screening services, has determined and noted in the relevant record that a longer waiting time will not have a detrimental impact on the health of the covered person
- Preventive care services and periodic follow-up care including but not limited to standing referrals to specialists for chronic conditions, periodic office visits to monitor and treat pregnancy, cardiac, or mental health or substance use disorder conditions, and laboratory and radiological monitoring for recurrence of disease, may be scheduled in advance consistent with professionally recognized standards of practice.
- Provide 24 hours per day, 7 days per week of triage or screening services by telephone:
  - a. in a timely manner and with waiting times that do not exceed 30 minutes, and
  - b. that can be provided by insurer-operated telephone triage or screening services, telephone medical advice services, contracted primary care and mental health or substance use disorder care provider network, or other method that is consistent with requirements.
- Insurers shall ensure that, during normal business hours, the waiting time for a covered person to speak by telephone with an insurer customer service representative knowledgeable and competent regarding the covered person's questions and concerns shall not exceed ten (10) minutes, or that the covered person will receive a scheduled call-back within 30 minutes
- Review and evaluate, no less frequently than quarterly, the information available to the insurer regarding accessibility, including but not limited to information obtained through covered person and provider surveys, covered person grievances and appeals, and triage or screening services.
- The following Behavioral Health standards apply for California:
  - Waiting times for appointments should generally not exceed the following:
    - (1) Life-Threatening Emergency: Seen immediately;
    - (2) Urgent Care: Forty-eight (48) hours if prior authorization not required; within 96 hours if prior authorization required, except as provided in (5);
    - (3) Routine Appointments MD/Psychiatrist: Fifteen (15) business days, except as

# Cigna

provided in (5);

(4) Routine Appointments non-MD: Ten (10) business days, except as provided in (5);

(5) The applicable waiting time for a particular appointment may be extended if the referring or treating licensed health care provider, or the health professional providing triage or screening services, as applicable, acting within the scope of his or her practice and consistent with professionally recognized standards of practice, has determined and noted in the relevant record that a longer waiting time will not have a detrimental impact on the health of the enrollee.

- Rescheduling Appointments: In the event that an appointment needs to be rescheduled, the provider is required to follow the above standards.
- Interpreter services shall be coordinated with scheduled appointments for health care services in a manner that ensures the provision of interpreter services at the time of the appointment.

## Colorado

  - Urgent: Within 24 hours\*
  - Routine symptomatic: Within 2 weeks
  - Routine non-symptomatic: As soon as possible. Also, within 1 hour of scheduled appointment time seen for professional evaluation\*
- Insured
  - Hours of operation of exclusive providers and availability of after-hour care must reflect usual practice in the local area. Emergency care must be available 24 hours a day, 7 days a week

## Kansas

- Sufficiency may be established based on appointment waiting times

## Maine

- Analyze against the Cigna standards annually for:
  - Regular and routine care appointments;
  - Urgent care appointments;
  - After-hours care; and
  - Member services by telephone
- For Behavioral Health Care:
  - Care for non-life-threatening emergencies within 6 hours,\*
  - Urgent care within 48 hours; and,
  - Appt for routine care within 10 business days\*

## Maryland

Each provider panel shall meet the waiting time standards for at least 95 percent of the enrollees covered under health benefit plans that use that provider panel.

When it is clinically appropriate and an enrollee elects to utilize a telehealth appointment, a carrier may consider that utilization as a part of its meeting the standards.

Preventive care services and periodic follow-up care, including but not limited to, standing referrals to specialty providers for chronic conditions, periodic office visits to monitor and treat pregnancy, cardiac or behavioral health or substance use disorder conditions, and laboratory and radiological monitoring for recurrence of disease, may be scheduled in advance consistent with professionally recognized standards of practice as determined by the treating provider acting within the scope of the provider's license, certification, or other authorization.

Waiting Time Standards
------------------------

# Cigna

Urgent care (including medical, behavioral health, and substance use disorder services)	72 hours
Routine primary care	15 calendar days
Preventive visit/well visit	30 calendar days
Non-urgent specialty care	30 calendar days
Non-urgent behavioral health/substance use disorder services	10 calendar days

## Missouri (HMO)

- For all provider types:
  - Routine care without symptoms: Within 30 days from the time that the enrollee contacts the provider
  - Routine care, with symptoms: Within 1 week/5 business days from time that enrollee contacts the provider\*
  - Urgent care: Within 24 hours from the time that the enrollee contacts the provider\*
  - Emergency care: Available 24/7; immediately
  - OB care:
    - Within 1 week for 1st or 2nd trimester;\*
    - Within 3 days for 3rd trimester
    - Emergency obstetrical care is subject to the same standards as emergency care except that an obstetrician must be available 24 hours per day, 7 days per week for enrollees who require emergency obstetrical care.
- Mental Health: 24/7 access to a licensed physician therapist via phone.

## New Hampshire

- For PCP services, the carrier must ensure that covered persons may obtain an initial appointment with an in-network provider within:
  - 48 hours for urgent care; and
  - 30 days for other routine care, including an initial or evaluation visit
- For behavioral health services, the carrier must ensure that covered persons may obtain an initial appointment with an in-network provider within:
  - 6 hours for a non-life-threatening emergency;
  - 48 hours for urgent care; and
  - 10 business days for an initial or evaluation visit.

## New Jersey

# Cigna

- Emergency: Immediately
- Urgent: Within 48 hours of notification to PCP or carrier
- PCP: 24/7 triage services
- Routine appts: As soon as possible\*
- Routine physicals: Within 4 months

## North Carolina

- An annual North Carolina-specific Provider survey will be conducted to measure the following performance measures. This survey will request that the Provider's office respond to specific questions that will be used to assess the appointment waiting time availability by the Provider types specified below. The survey results will be reported in the filing corresponding to the calendar year in which the survey was performed.
- Medical Provider Survey:

Provider Type	Routine (Symptomatic Regular and Routine Care)	Urgent	Emergency**
Performance Goal*	70%	80%	100%
Primary Care Physician (includes Family Practice, Internal Medicine and General Practice)	Within 14 days	Within 48 hours	Immediately
Pediatrician	Within 14 days	Within 48 hours	Immediately
Obstetrician/Gynecologist (Pre-natal care standards)	<ul style="list-style-type: none"> <li>• 1st trimester: Within 14 days</li> <li>• 2nd trimester: Within 7 days</li> <li>• 3rd trimester: Within 3 days</li> </ul>	Immediately	Immediately
Specialist (includes top ten highest volume specialties using customer claims data for a twelve [12]-month period)	Within 14 days	Within 48 hours	Immediately
Non-Physician (includes top ten highest volume non-physician provider types using customer claims data for a twelve [12]-month period)	Within 14 days	Within 48 hours	Immediately

\* Performance Goal is determined by appropriate Quality Committee

\*\*Emergency standard is measured by asking whether provider offices have 24/7 coverage arrangements to address emergencies and the emergency standard is not applicable to routine vision.

# Cigna

- Behavioral Provider Survey:  
Must measure results separately for psychiatrists and non-physicians for the following categories:

Category	Standard Measure	Goal*
Non-Life Threatening Emergency	Within 6 hours	90%
Urgent	Within 48 hours	70%
Routine	Within 10 working days	80%

\* Performance Goal is determined by appropriate Quality Committee

- Medical and Behavioral must measure survey results separately for the following legal entities/products:
  - Cigna HealthCare of North Carolina, Inc.
  - Connecticut General Life Insurance Company, Inc. – POS
  - Connecticut General Life Insurance Company, Inc. – PPO
  - Cigna Health and Life Insurance Company, Inc. – POS
  - Cigna Health and Life Insurance Company, Inc. – PPO
- Medical and Behavioral results must include explanation/corrective action for any results falling below goals

## Rhode Island

- Emergency: Immediate and Urgent: 24 hours\*

## Tennessee

- Emergency Care (including ambulance service): 24 hours a day, 7 days per week. Must be able to obtain emergency care at any available emergency care facility. Also must be available (as well as urgent services) when outside usual service area.
- Urgent Care: Same day or within 24 hours based on physician assessment of need;
- Routine care: Required to have written standards, but not specified what standard must be;
- Specialty Care Appointments: Available in a "timely manner."
- Office Waiting Times: Required to have written standards, but not specified what standard must be;
- After-Hours Consultation and Callback Time: Must be available and accessible by telephone from PCP or on-call designee whenever the PCP's office is closed. Must be a reasonable callback response time and must be documented as a written standard.

## Texas

- Urgent care within 24 hours for medical and behavioral.\*

# Cigna

- Routine care within 3 weeks for medical and 2 weeks for behavioral conditions.
- Preventive services within 2 months for a child (earlier if needed for specific services) and 3 months for an adult.
- Network adequacy must be assessed using Texas's appointment availability standards. Appointment availability standards are measured via annual provider survey.

## Vermont

- Emergency: Immediately
- Urgent: Within 24 hours\*
- Non-emergency or non-urgent care: Within 2 weeks for initial treatment
- Preventive care (physicals): Within 90 days
- Routine lab, x-ray, optometry, and other routine services: Within 30 days\*

## Virginia

- Emergency: Immediately
- Urgent: Within 24 hours\*
- Routine physicals: Within 60 days
- Routine appointments: Within 2 weeks

## West Virginia

- Emergency: Customer must have access 24 hours per day, seven days per week (N/A to dental and vision)
- Insurance commissioner will determine sufficiency based on appointment waiting times

## Purpose:

To describe Cigna's availability standards and the processes used to assure that all Medical and Behavioral networks across all product lines have a sufficient number and distribution of Practitioners and Providers to meet customers' availability, cultural, ethnic, racial, and linguistic needs, preferences, and expectations.

## Policy Statement:

It is the policy of Cigna to ensure appropriate availability of primary care, specialty care, behavioral healthcare and hospital care for our customers. The organization contracts with practitioners and providers across all networks and for all product lines to meet the availability and cultural needs and preferences of our customers, establishes availability standards and assesses its networks against those standards.

## Definitions:

- For purposes of this policy "customer" means an individual participant or member.
- Insured Products: customers insured in the PPO, EPO, OAP, OAP IN, Network, Network POS, Network Open Access, Network POS Open Access, LocalPlus®, Surefit®, and Connect products.
- HMO Products: customers insured in the HMO, HMO/POS, HMO Open Access and HMO POS Open Access products.
- Availability: the number and geographic distribution of Providers and Practitioners for Medical Primary Care, Medical Specialty Care, Behavioral Healthcare and Hospital Care.
- Practitioner: a licensed or certified professional that provides medical or behavioral services.
- Provider: an organization or institution that provides medical or behavioral services, such as a hospital.
- Geographic distribution: Calculated using the industry-standard Quest Analytics software to measure estimated driving distance from a customer's home zip code to a Provider access point, which is defined as an identified Provider and office location at which a customer can access services. Each Provider-location combination is counted individually, e.g. 2 individual Providers who share 2 office locations will be counted as a total of 4 access points: 1) Provider A at location X, 2) Provider B at location X, 3) Provider A at location Y, and 4) Provider B at location Y, because a customer would have 4 options for accessing services.
- CMS geographic distribution by county: CMS defines county by population. Some states have adapted these parameters. The 5 categories are:

# Cigna

Population and Density Parameters

County Type	Population	Density
<b>Large Metro</b>	≥ 1,000,000	≥ 1,000/sq. mile
---	500,000 – 999,999	≥ 1,500/ sq. mile
---	Any	≥ 5,000/ sq. mile
<b>Metro</b>	≥ 1,000,000	10 – 999.9/sq. mile
---	500,000 – 999,999	10 – 1,499.9/sq. mile
---	200,000 – 499,999	10 – 4,999.9/sq. mile
---	50,000 – 199,999	100 – 4,999.9/sq. mile
---	10,000 – 49,999	1,000 – 4,999.9/sq. mile
<b>Micro</b>	50,000 – 199,999	10 – 99.9 /sq. mile
---	10,000 – 49,999	50 – 999.9/sq. mile
<b>Rural</b>	10,000 – 49,999	10 – 49.9/sq. mile
---	<10,000	10 – 4,999.9/sq. mile
<b>CEAC</b>	Any	<10/sq. mile

- Ratio of Providers to Customers: Providers to customer ratios are normally calculated with the Provider count constant at 1, where the Provider count is based on unique Provider and the Customer count is based on customer's home zip code. To convert to a ratio in this format, simply divide the customer count by the Provider count, e.g. 3000 customers divided by 30 Providers equals "3000/30 = 100" – the ratio 1 to the result of the calculation (1:100 in this example).
- Urban: Population density is >3,000 people per square mile
- Suburban: Population density is 1,000-3,000 people per square mile
- Rural: Population density is <1,000 people per square mile
- Medical Practitioner Provider Types:
  - 
  - Medical Primary Care Provider (PCP): A physician duly licensed to practice medicine that is a contracted with Cigna to provide covered services in the field of General Medicine, Internal Medicine, Family Practice, and Pediatrics and has agreed to provide primary care services to Cigna Contract customers in accordance with Cigna Program Requirements. Unless specified by state mandate and contractually agreed to by the Provider and Cigna, Obstetricians and Gynecologists are defined as specialty care providers only and cannot act as primary care providers. See Attachment B for state mandates allowing additional Providers to provide primary care services.

# Cigna

- Medical Specialty Care Provider (SCP): A physician, who has advanced education and training in one clinical area of practice, is duly licensed to practice medicine and who is contracted with Cigna to provide specialty care services to Cigna Contract customers in accordance with Cigna Program Requirements. A High-Volume SCP provides services to the largest segment of the membership, inclusive of the OB/GYN Specialty. A High-Impact SCP treats conditions with high mortality and/or high morbidity rates, and may require significant resources for appropriate treatment. An Oncologist is one High-Impact SCP type.
- Medical High-Volume Specialists: The High Volume Specialists below are identified by researching claims data for a 12-month period and the number of transactions of the top five specialties, excluding hospital-based specialists (i.e. radiologists).
  - Cardiology: A physician duly licensed to practice medicine who is contracted with Cigna to provide Covered Services in the field of Cardiovascular Disease; Cardiology, Interventional, or Cardiovascular Surgery.
  - Dermatology: A physician duly licensed to practice medicine who is contracted with Cigna to provide Covered Services in the field of Dermatology.
  - OB/GYN (Obstetrician/Gynecologist): A physician or nurse practitioner duly licensed to practice medicine who is contracted with Cigna to provide Covered Services in the field of Gynecology, Maternal and Fetal Medicine, Midwifery, Women's Health Nurse Practitioner; Obstetrics, or Obstetrics and Gynecology.
  - Ophthalmology: A physician duly licensed to practice medicine who is contracted with Cigna to provide Covered Services in the field of Ophthalmology.
  - Orthopedic: A physician duly licensed to practice medicine who is contracted with Cigna to provide Covered Services in the field of Orthopedic Sports Medicine, Orthopedic Surgery, or Orthopedic Trauma.
- Medical High-Impact Specialists: The High Impact Specialists below are identified as specialists that treat conditions that have a high mortality morbidity rate or if the specialty treats conditions that require significant resources.
  - Hematology/Oncology: A physician duly licensed to practice medicine who is contracted with Cigna to provide Covered Services in the field of Gynecologic Oncology, Hospice and Palliative Medicine, Hematology, Oncology, or Radiation Oncology
  - Infectious Disease: A physician duly licensed to practice medicine who is contracted with Cigna to provide Covered Services in the field of HIV/AIDS Specialist or Infectious Disease.
  - Nephrology: A physician duly licensed to practice medicine who is contracted with Cigna to provide Covered Services in the field of Nephrology.
  - Neurology: A physician duly licensed to practice medicine who is contracted with Cigna to provide Covered Services in the field of Brain Injury Medicine, Clinical Neurophysiology, Neurology, or Neurological Surgery.
  - Pulmonary Medicine: A physician duly licensed to practice medicine who is contracted with Cigna to provide Covered Services in the field of Pulmonary Disease or Thoracic Surgery.
- Hospital: An institution which is contracted with Cigna to provide Covered Services: medical and surgical care.
- Behavioral Practitioner/Provider Types
  - Psychiatrist: A licensed physician (MD/DO) specializing in the diagnosis and treatment of mental illness or substance abuse with prescription privileges.
  - Psychologist: A licensed PhD, PsyD, or Nurse Practitioner (with prescription privileges) specializing in the diagnosis and treatment of mental illness or substance abuse.

# Cigna

- Masters Level Clinician: A licensed behavioral health practitioner with a master's degree, such as a clinical social worker, psychiatric nurse practitioner (without prescription privileges), marriage and family therapist, or counselor who does not have a physician's or psychologist's level of licensure or training.
- Behavioral High-Volume Specialists: Cigna Behavioral Health includes the following as high volume behavioral health specialist Practitioners:
  - Child, adolescent, and adult psychiatrists
  - Clinical psychologists
  - Clinical social workers
  - Psychiatric nurse practitioners (with prescription-writing privilege and without prescription-writing privilege)
  - Mental health/substance abuse counselors
  - Marriage and family therapist
- Inpatient facility: delivers inpatient, mental health, and substance services.
- Residential facility: Licensed for providing 24 hour supervision on a non-locked unit for mental health and substance abuse care.
- Ambulatory services: Provided at facilities, clinics, and offices include partial/day hospital or intensive outpatient programs for mental health and substance abuse.
- National Vendor Specialty Practitioner/Provider Types
  - Chiropractors: A physician duly licensed to practice medicine who is contracted with Cigna to provide Covered Services in the field of Chiropractic Medicine.
  - Physical Therapy/Occupational Therapy: A practitioner or provider which is contracted with Cigna to provide Physical Therapy or Occupational Therapy.
  - Outpatient Dialysis: A dialysis provider which is contracted with Cigna to provide dialysis services.
- Quest Analytics: Software program that determines the distance between a participant and defined provider types. The reports are used to evaluate the availability of providers within the network. This is accomplished by comparing the database of provider addresses to the database of participant addresses. The software assigns latitude and longitude according to one's physical address. This allows the software to pinpoint the distance between providers and participants according to mileage or driving time.
- Individual and Family Plan (IFP): Plan type typically offered on or off Marketplace.
- Essential Community Providers (ECP): Providers that serve predominately low-income and medically underserved individuals which include Federally Qualified Health Centers, Ryan White clinics, family planning clinics, hospitals and other ECPs.
- High Performing Local Market Network: Network types that are typically more narrow in terms of the number of providers and/or geography. (Surefit®, LocalPlus®, Connect, HMO Connect, Focus, Vantage, etc.)

**State/Federal Compliance:** State specific mandates will override national standards when applicable. Annual review of networks in states where the standards are more stringent than the national standards will be facilitated by the National Team and/or CBH and shared with medical & behavioral businesses including Contracting & Compliance. For state specific Network Adequacy Requirements, please refer to the Compliance Common Bulletin called: Provider Networks: Network Adequacy and Service Area Common Bulletin. This can be found by going to iComply, (link at end), and clicking on the View Common Bulletins hyperlink. These state requirements are noted in Attachment A.

## Procedure(s):

- A. Cigna customers will have primary care, specialty care (when referred by a primary care provider (PCP) for HMO Product\* customers only), behavioral healthcare, and hospital care available to them.
- B. Cigna establishes availability standards utilizing Federal/State standards and internal performance metrics.
- C. Unless otherwise stated by a state-specific or Centers for Medicare & Medicaid Services (CMS) mandate, Cigna's availability standards for the ratio and geographic distribution of Practitioners and Providers are described on the tables below. Standards are identical for all medical networks whether the customer has an HMO product or Insured Product. Standards are identical for all Behavioral Practitioners and Providers, whether or not they are designated as high volume.

### 1. Ratios:

Medical Specialty Category	Ratio
Adult Primary Care Provider	1 Adult PCP per 300 customers
Pediatric Primary Care Provider	1 Pediatric PCP per 300 customers

In remote or rural areas, occasionally these geographic availability guidelines are not able to be met due to lack of, or absence of, qualified Practitioners and/or Providers. The organization may need to alter the standard based on local availability. Supporting documentation that such situation exists must be supplied along with the proposed guideline changes to the appropriate Quality Committee for approval. Unless noted above or specified under state mandates outlined in Attachment A, Cigna’s goal for meeting availability standards is 90%.

- D. Evaluation of results:
1. Availability standards (geographic distribution and ratio of Practitioners and Providers to customers) are measured and analyzed annually.
  2. Availability standards (geographic distribution and ratio of Practitioners and Providers to customers) are measured as needed when there is a significant termination such as a Hospital or large medical group when access may be impacted. Alternative Providers may be recruited to address any access gap as a result of the termination.
  3. Cultural, ethnic, racial, and linguistic needs and preferences are measured and analyzed triennially and include monitoring of the following:
    - a) Census data
    - b) Customer Satisfaction Surveys
    - c) Practitioner and/or Provider Demographics
    - d) Review of complaints and appeal data.
  4. Cigna uses a continuous quality improvement (CQI) process to identify opportunities for improvement using these steps:
    - a) Collect/measure data
    - b) Evaluate results
    - c) Identify possible root causes or barriers
    - d) Select opportunities
    - e) Plan/implement intervention/Corrective Actions
    - f) Determine intervention effectiveness
  5. Reports are presented to the appropriate Quality Committee.
- E. Essential Community Providers (ECP): For those states where Cigna participates on Marketplace, the network offered will include Essential Community providers. The Regional Network Access teams will complete the CMS ECP template annually to demonstrate compliance. Indian health providers are also offered contracts in these states but are not required to be in the network.
- F. Nationally Contracted Vendors: Nationally contracted specialty vendors such as ASHN will be required to meet the access requirements listed below. The National Network Access Team will conduct the audit and share the

findings with the National Contracting Team. The results will be shared with the vendor and the vendor will provide Cigna with any necessary corrective action plan.

### Comparison of State and Marketplace Network Adequacy Requirements to Cigna Standards

Centers for Medicare and Medicaid Services (CMS) require Qualified Health Plan's (QHP) meet the following criteria:

- Beginning with the 2018 plan year, CMS defers to the state reviews in states with the authority to conduct sufficient network adequacy reviews. In states that do not review network adequacy, CMS will rely on our accreditation standards.
- Network must include 20% of the available ECP's in the service area unless otherwise noted in state specific information.
- Indian Health Providers must be offered a contract annually
- At least one ECP in each category must be offered a contract annually

**States with Requirements that are More Stringent than Cigna standard:**

\*Indicates requirements that are met by Cigna standard

- **Arkansas**

Network adequacy standards listed below must be met for 80% of covered individuals:

- At least 1 PCP in 30 miles (Pharmacies are considered PCPs and are held to the same network adequacy standard, Home delivery cannot be included in determining adequacy)
- At least 1 Specialist in 60 miles
- At least 1 Hospital in 30 miles
- At least 1 ECP in 30 miles
- Emergency services access 24/7 within 30 miles

- **Arizona – HMO only**

- Urban (zip code with more than 3,000 persons per square mile)
  - PCP - 10 miles or 30 minutes\*
  - SCP - 15 miles or 45 minutes
  - Inpatient Hospital - 25 miles or 75 minutes\*
- Suburban (zip code area with 1,000 – 3,000 person per square mile)
  - PCP - 15 miles or 45 minutes\*
  - SCP - 20 miles or 60 minutes
  - Inpatient Hospital - 30 miles or 90 minutes\*
- Rural (zip code with fewer than 1,000 persons per square mile)

- A carrier must prepare an access plan prior to offering a new network plan, and shall notify the Commissioner of any material change to any existing network plan within fifteen (15) business days after the change occurs, and provide notice to customers 45 days prior to the change
- Issuers must ensure their provider networks have a sufficient number and geographic distribution of ECPs, where available, to ensure reasonable and timely access to a broad range of such providers for low-income, medically underserved individuals in the issuer's service area.
- There are two ECP standards for issuer ECP submissions
  - General ECP Standard. Carriers utilizing this standard shall demonstrate in their "ECP/Network Adequacy Template" that at least 30 percent (30%) of available ECPs in

# Cigna

each plan's service area participate in the plan's network. This standard applies to all carriers except those who qualify for the alternate ECP standard.

- Alternate ECP Standard. Carriers utilizing this standard shall demonstrate in their "ECP/Network Adequacy Template" and justifications, that they have the same number of ECPs as defined in the general ECP standard (calculated as 30 percent (30%) of the ECPs in the carrier's service area), but the ECPs should be located within Health Professional Shortage Areas (HPSAs) or five-digit ZIP codes in which 30 percent (30%) or more of the population falls below 200 percent (200%) of the federal poverty level (FPL). An alternate ECP standard carrier is one that provides a majority of covered professional services through physicians it employs or through a single contracted medical group.

- Specialty physician services, ancillary services, specialty inpatient hospital services and all other health services: 60 minutes (measured as avg. travel time from service area boundary to provider) [ASSUME: 60 miles]
- PCP site and general inpatient hospital: 30 minutes (measured as avg. travel time from service area boundary to provider) [ASSUME: 30 miles]

- **Illinois**

Beginning 1/1/2019:

- The ratio of physicians or other providers to plan members and maximum travel and distance standards for plan members shall be established annually by the Department in consultation with the Department of Public Health based upon the guidance from the federal Centers for Medicare and Medicaid Services for the following physicians:
  - Primary Care; Pediatrics; Cardiology; Gastroenterology; General Surgery; Neurology; OB/GYN; Oncology/Radiation; Ophthalmology; Urology; Behavioral Health; Allergy/Immunology; Chiropractic; Dermatology; Endocrinology; Ears, Nose, and Throat (ENT)/Otolaryngology; Infectious Disease; Nephrology; Orthopedic Surgery; Physiatry/Rehabilitative; Plastic Surgery; Pulmonary; Rheumatology; Anesthesiology; Pain Medicine; Pediatric Specialty Services; Outpatient Dialysis; and HIV.
- These ratio and time and distance standards apply to the lowest cost-sharing tier of any tiered network that is used for individual health benefit plans (IFP).
- The network plan may consider use of other health care service delivery options, such as telemedicine or telehealth, mobile clinics, and centers of excellence, or other ways of delivering care to partially meet the requirements.
- If unable to comply with the provider ratios, time, and distance standards, insurer may request an exception.
- Geographic Distribution (Urban/Rural)
  - Specialists: 45 minutes or 60 miles urban /75 minutes or 100 miles rural
- Primary Care, OB/Gyn and General Hospital Care: 30 minutes or 30 miles urban /60 minutes or 60 miles rural. The IL DOI's current requirements for network access minimum ratio of providers to plan members and maximum travel and distance standards can be found at:

Times for Appointments with Providers, and Provider-to-Customer Ratios, and a list of all changes made to the NAP filed the previous year.

- Measuring availability for each Medical Specialty category is conducted by utilizing the designation(s) the provider has indicated. As an example, an Obstetrician may self-designate as a primary care provider and a specialty care provider, and will be measured in the primary care category and the specialist category.
- Measuring availability for Primary Care Services is conducted by utilizing the designation the provider has indicated. If a Gynecologist, Pediatrician, Certified Registered Nurse Practitioner, General Medicine, Internal Medicine, or Family Practice provider has self-designated as primary care, that provider will be measured in the primary care category.
- The travel distance standards do not apply to the following: (a) Home health care; (b) Durable medical equipment; (c) Transplant programs (heart, lung, kidney, liver or pancreas)
- Provider to Enrollee Ratios: Provider Networks must have at least one (1) physician/provider for:
  - 1,200 enrollees for primary care
  - 2,000 enrollees for pediatric care
  - 2,000 enrollees for obstetrical/gynecological care
  - 2,000 enrollees for behavioral health services
  - 2,000 enrollees for substance use disorder services
- Travel Distance Standards:
  - "Urban area" means a zip code that, according to the Maryland Department of Planning has a human population equal to or greater than 3,000 per square mile.
  - "Suburban area" means a zip code that, according to the Maryland Department of Planning has a human population equal to or greater than 1,000 per square mile but less than 3,000 per square mile.
  - "Rural area" means a zip code that, according to the Maryland Department of Planning has a human population of less than 1,000 per square mile.

## • Montana

- Deems insurers that meet the following requirements to have an adequate network for that category of health care providers:
  - the network includes at least 80% of the licensed individual physicians actively practicing in the state of Montana;
  - the network includes at least 80% of the licensed individual non-physician health care providers actively practicing in the state of Montana; and
  - The network includes at least 90% of those facilities licensed and operating as hospitals in the state of Montana.
- If percentages not met, requires all networks to provide adequate choice of each type of provider and facility, including but not limited to: \*
  - physicians;
  - mental health and chemical dependency treatment providers;
  - pharmacies;
  - hospitals;
  - surgi-centers; and
  - Residential treatment centers.
- If percentages not met, requires sufficiency and adequacy determinations to be based on "reasonable criteria," "Reasonable criteria" may include:\*
  - provider to covered person ratios by specialty
  - primary care provider to covered person ratios
  - geographic accessibility
  - waiting times for appointments with participating providers
  - the volume of specialty services available to serve the needs of covered persons requiring specialty care.

- Pediatrician
  - Obstetrician/Gynecologist
  - Specialist (includes top ten highest volume specialties using customer claims data for a twelve (12) month period)
  - Non-Physician (includes top ten highest volume non-physician provider types using customer claims data for a twelve (12) month period)
  - Inpatient Facility (includes hospitals)
  - Outpatient Facility (includes ambulatory surgical centers, skilled nursing facilities, etc. . . )
- Network Density or Ratio of Providers to covered lives will be measured using the methodology outlined in the definition section of this policy, using the standards below. Providers include Providers from NC and NC bordering counties. Customers are defined as insured residents of North Carolina regardless of situs state.
  - Driving Distance or Geographic Distribution (# of Providers within # of miles) by Urban, Suburban, and Rural will be measured using the methodology outlined in the definition section of this policy, using the standards below. - Hillsborough -Nashua 03060 or Manchester 03103; and
- Rockingham - Portsmouth 03801 or Derry 03038.
- A carrier must meet the service specific requirement for Merrimack County for persons living in the Concord 03301 zip code.
- A carrier must meet the service specific requirement for Grafton County for persons living in 2 of the following zip codes:
  - Littleton 03561;
  - Plymouth 03264; or
  - Lebanon 03748.
- Geographic access standards are based on the following county groupings: "URBAN", "MIDDLE", and "RURAL". Maximum travel distances or times are based on the service type, county, and specific zip code within the county as follows:
  - For URBAN counties, including Strafford, Hillsborough, and Rockingham counties:
    - 10 miles or 15 minutes driving time for core services;
    - 20 miles or 30 minutes driving time for common services; and
    - 40 miles or one hour driving time for specialized services;
  - For MIDDLE counties, including Merrimack, Belknap, Cheshire, Grafton, Carroll, and Sullivan counties:
    - 20 miles or 40 minutes driving time for core services;
    - 40 miles or 80 minutes driving time for common services; and
    - 70 miles or 2 hours driving time for specialized services; and
  - For RURAL counties, including Coos county:
    - 30 miles or one hour driving time for core services;
    - 80 miles or 2 hours driving time for common services; and
    - 125 miles or 2 1/2 hours driving time for specialized services.
- For the purposes of network adequacy review services will be classified as "Core", "Common" or "Specialized". Please refer to the attachment in CI NH: **PROVIDER NETWORKS: NETWORK ADEQUACY** for a listing of those services.
- All other covered services that are not listed in the attachment will be available from providers within New England.
- Prescription medications from a retail pharmacy must be available within the time and distance standards equal to those associated with the "Core" services for a specific county.

  - Other specialty hospital services, including major burn care, organ transplantation and specialty pediatric care: “reasonable accessibility”
  - Recognize centers of excellence outside of state
  - The commissioner shall grant an exception to the requirements of this section if the managed care organization can demonstrate with specific data that the requirement of travel time standards and waiting time standards are not feasible in a particular service area or part of a service area.
  - An annual report of network adequacy with respect to travel times from residence or place of business is required.
- **Washington**
  - The following criteria will be used to assess whether an insurer meets network adequacy requirements:

# Cigna

- The number of customers within each service area living in certain types of institutions or who have chronic, severe, disabling medical conditions, as determined by the population the insurer is covering and the benefits provided;
- For primary care providers the following must be demonstrated:
  - The ratio of primary care providers to customers within the insurer's service area as a whole meets or exceeds the average ratio for Washington state for the prior plan year;
  - The network includes such numbers and distribution that 80% (eighty percent) of customers within the service area are within 30 (thirty) miles of a sufficient number of primary care providers in an urban area and within 60 (sixty) miles of a sufficient number of primary care providers in a rural area from either their residence or work; and
  - Each issuer must ensure at all times that there are a sufficient number of pediatricians in the service area accepting new patients to accommodate new enrollees if the plan is open to new enrollment, and to ensure that existing enrolled children have the ability to change pediatricians.\*
- For specialty care providers the following must be demonstrated:
  - The network includes such numbers and distribution that 80% (eighty percent) of customers within the service area are within 30 (thirty) miles of a sufficient number of specialty care providers in an urban area and within 60 (sixty) miles of a sufficient number of specialty care providers in a rural area from either their residence or work; and
- Mental Health Services: The insurer must measure the adequacy of the mental health network against this standard at least twice a year, and submit an action plan with the commissioner if the standard is not met.
  - Emergency mental health services, including crisis intervention and crisis stabilization services must be included in an insurer's provider network.
  - An insurer must include a sufficient number and type of mental health and substance use disorder treatment providers and facilities within a service area based on normal utilization patterns.
  - An insurer must ensure that a customer can identify information about mental health services and substance use disorder treatment including benefits, providers, coverage, and other relevant information by calling a customer service representative during normal business hours.
- Indian Health Care Provider Requirements
  - To provide adequate choice to customers who are American Indians/Alaska Natives, each health insurer must maintain arrangements that ensure that American Indians/ Alaska Natives who are customers have access to covered medical and behavioral health services provided by Indian health care providers.
  - At a minimum, an insurer's provider network must adequately provide for mental health and substance use disorder treatment, including behavioral health therapy.
- An issuer of a health plan must maintain and monitor, on an ongoing basis, the ability and clinical capacity of its network providers and facilities to furnish covered health plan services to enrollees. An issuer must notify the commissioner in writing within fifteen days of a change in its network as described below:
  - A reduction, by termination or otherwise, of ten percent or more in the number of either specialty providers, mental health providers, or facilities participating in the network;

# Cigna

- The initial time frame for measuring this reduction is from the network's initial approval date until the January 1st following the initial approval date.
  - After the January 1st following the network's initial approval date, the time frame for measuring this reduction is from January 1st to the following January 1st.
  - Termination or reduction of a specific type of specialty provider on the American Board of Medical Specialties list of specialty and subspecialty certificates, where there are fewer than two of the specialists in a service area;
  - An increase or reduction of twenty-five percent or more in the number of enrollees in the service area since the annual approval date;
  - A reduction of five percent or more in the number of primary care providers in the service area who are accepting new patients;
  - The termination or expiration of a contract with a hospital or any associated hospital-based medical group within a service area;
  - A fifteen percent reduction in the number of providers or facilities for a specific chronic condition or disease participating in the network where the chronic condition or disease affects more than five percent of the issuer's enrollees in the service area. For purposes of monitoring, chronic illnesses are those conditions identified (or recognized) by the Centers for Medicare and Medicaid Services within the most current version of the Centers for Medicare and Medicaid Chronic Conditions Data Warehouse data base available on the CMS.gov web site; or
  - Written notice to the commissioner must include the issuer's preliminary determination whether the identified changes in the network require an alternate access delivery request.
- Effective 01/01/2020, when determining the adequacy of a proposed provider network, or the ongoing adequacy of an in-force provider network, the commissioner will consider whether it includes a sufficient number of contracted providers of emergency and surgical or ancillary services at the carrier's contracted in-network hospitals or ambulatory surgical facilities, to reasonably ensure enrollees have in-network access to covered benefits delivered there.

## States with Requirements that are Less Stringent than Cigna Standard:

- **Florida - Applicable to Network [FlexCare EPP] Only**
  - Geographic availability of exclusive providers must reflect the usual travel times within the community. The number of exclusive providers in the service area is sufficient, with respect to current and expected policyholders, to deliver adequately all services or to make referrals
- **Hawaii**
  - On or before Jan. 1 of each year each managed care plan shall file a report to demonstrate the adequacy of its network to the insurance commissioner.
  - A provider network shall be considered adequate if it provides access to sufficient numbers and types of providers to ensure that all covered services will be accessible without unreasonable delay, after taking into consideration geography. The commissioner shall also consider any applicable federal standards on network adequacy. A certification from a national accreditation organization shall create a rebuttable presumption that the network of a managed care plan is adequate.

# Cigna

- **Indiana – HMO only**
  - HMOs in Indiana must demonstrate to the Commissioner that the HMO has developed an access plan to meet the needs of the HMO's enrollees. This includes vulnerable and underserved enrollees as well as enrollees from major population groups who speak a primary language other than English.
- **Kansas**
  - Carriers are required to maintain a provider network that is sufficient in numbers and types of providers to assure that all covered services will be accessible without unreasonable delay. Sufficiency may be established by reference to any reasonable criteria used by the carrier, including but not limited to: (1) provider-enrollee ratios by specialty; (2) PCP-enrollee ratios; (3) geographic accessibility; (4) waiting times for appointments with participating providers; (5) hours of operation; and (6) the availability of technological and specialty services to serve the needs of enrollees requiring technologically advanced or specialty care.
- **Louisiana**
  - Insurers shall maintain a network that is sufficient in numbers and types of health care providers to ensure that all health care services to covered persons will be accessible without unreasonable delay. Specific requirements include:
    - Ratios of health care providers to covered persons by specialty, ratios of primary care providers to covered persons, geographic accessibility, and volume of technological and specialty services available to serve the needs of covered persons requiring technologically advanced or specialty care.
    - The network must include providers that specialize in mental health and substance abuse services, facility-based physicians, and essential community providers.
    - Insurer shall establish and maintain adequate arrangements to ensure reasonable proximity of participating providers to the primary residences of covered persons.
    - Insurer shall annually file with the commissioner of insurance, an access plan for each of the health benefit plans that the health insurance issuer offers in this state. In lieu of meeting the filing requirements, a health insurance issuer shall submit proof of accreditation from the National Committee for Quality Assurance (NCQA) or American Accreditation Healthcare Commission, Inc./URAC to the commissioner, including an affidavit and sufficient proof demonstrating its accreditation for compliance with the network adequacy requirements.
- **Maine**
  - Must analyze performance against the standards at least annually using methodology selected that allows direct measurement against standards for PCPs, SCPs and Behavioral Health Care Providers.

# Cigna

- Must report annually to the state on March 1st an access plan which includes network adequacy standards. Additionally, if a carrier loses 5 or more PCPs in any county in any 30 day period, it must be reported to the Maine regulators within 10 days.
- 1 PCP per 2,000 enrollees, including general and internal medicine, family practice, and pediatrics.\*
- Specialty Care. To ensure reasonable access to specialty care practitioners within its delivery system, the carrier shall:
  - Define the types of practitioners who serve as high-volume specialty care practitioners. At a minimum, high-volume specialties shall include obstetrics/gynecology, cardiology, dermatology, ophthalmology, orthopedic surgery, gastroenterology, and other specialties that the carrier determines to be high-volume.
  - Establish quantifiable and measurable standards for the number and geographic distribution of each type of high-volume specialty care practitioner.
- Behavioral Health Care. Carriers shall ensure the reasonable availability of behavioral health care practitioners. To ensure the reasonable availability of high-volume behavioral health care practitioners within its delivery system, the carrier shall:
  - Define the types of practitioners who are considered high-volume behavioral health care practitioners.
  - Establish quantifiable and measurable standards for the number and geographic distribution of each type of high-volume behavioral health care practitioner.
- A carrier must provide a reasonably adequate retail pharmacy network for the provision of prescription drugs for its covered persons. A mail order pharmacy may not be included in determining the adequacy of a retail pharmacy network.
- **Massachusetts**
  - Must file with the Commissioner an access analysis for each plan biennially by July 1st. Must also prepare an access analysis prior to offering a plan that includes a Provider Network, and must update an existing access analysis whenever the Carrier makes any Material Change to an existing plan. The access plan shall describe or contain at least the following:
    - A summary of Network adequacy standards;
    - The process for monitoring and assuring on an ongoing basis the sufficiency of the Network(s);
    - A report developed using a Network accessibility analysis system such as GeoNetworks, which shall include the following, or, for Carriers in a new geographic area(s) or an area(s) that does not currently have Insureds, estimates for the following, as applicable:
      - Maps showing the residential location of Insureds in Massachusetts, Primary Care Providers for both adults and children, specialty care practitioners, and institutional Providers;
      - Network adequacy standards;
      - Geographic access tables illustrating the geographic relationship between Providers and Insureds, or for proposed plans or Service Areas, the population according to the Carrier's standards for every city and town, including at a minimum the percentage of Insureds meeting the Carrier's standard(s) for access through its Network to 1) Primary Care Providers, 2) behavioral health and substance use disorder Health Care Professional practitioners, 3) specialty

# Cigna

care Health Care Professionals, 4) inpatient behavioral health and substance use disorder treatment, 5) inpatient acute tertiary care.

- **Mississippi**

- Insurers and HMOs offering managed care plans in the state of Mississippi must obtain certification as a managed care plan. Such certification must be renewed annually. One of the components of the requirements is that the managed care plan demonstrates that its provider network has providers of sufficient number throughout the service area to assure reasonable access to care with minimum inconvenience by plan enrollees and without unreasonable delay.
- Health Maintenance Organization Network Adequacy Requirements (applicable only to HMO, POS)
  - Modifications or amendments to the above should be filed with the Commissioner, but shall be deemed approved unless disapproved within 30 days.
  - To determine sufficiency, health carriers may use reasonable criteria, including but not limited to:
    - Provider-covered person ratios by specialty
    - Primary care provider-covered person ratios
    - Geographic Accessibility
    - Volume of technological and specialty services available to serve the needs of covered persons requiring technologically advanced or specialty care

- **Nebraska**

- A carrier must prepare a new access plan prior to offering a new managed care plan. Additionally, carriers must update existing access plans whenever material changes are made (note: material change is not defined).
- Health carriers must maintain a sufficient network. Sufficiency will be determined by reasonable criteria used by the health carrier, including, but not limited to:
  - provider-covered person ratios by specialty;
  - primary care provider-covered person ratios;
  - geographic accessibility;
  - the volume of technological and specialty services available to serve the needs of covered persons requiring technologically advanced or specialty care.

- **South Dakota**

- Must maintain a network that is sufficient in numbers and types of providers to assure accessibility of all covered services without unreasonable delay. Access to emergency services must be provided 24 hours a day, 7 days a week to treat emergency medical conditions that require immediate medical attention.
- Criteria used by the carrier may include:
  - Provider-covered person ratios by specialty;
  - Primary care provider-covered person ratios;
  - Geographic accessibility;
  - The volume of technological and specialty services available to service the needs of covered persons requiring technologically advanced or specialty care.
- Health carriers must file with the Director an Access Plan for each managed care plan offered in the state of South Dakota. Access Plans must be filed prior to offering a new managed care plan; and annual updates must be filed for each existing Access Plan.

# Cigna

- Must have a process for monitoring and assuring on an ongoing basis the sufficiency of the network to meet the health care needs of populations that enroll in managed care plans.
- **Virginia**
  - Managed Care Health Insurance Plans (MCHIPs) in the state of Virginia must provide a sufficient number and mix of services, specialists and practice sites to meet covered persons' health care needs, including providers serving high risk populations or those specializing in the treatment of costly conditions. Network adequacy criteria include travel times as well as appointment times.
  - MCHIPs must set reasonable and adequate standards for the number and geographic distribution of all providers. Standards must address acceptable average travel times or distance to:
    - the nearest primary care delivery site;
    - the nearest specialty care site; or
    - the nearest institutional service site (acute care hospitals, surgical facilities including tertiary care or other specialty hospitals, licensed outpatient surgical hospitals, psychiatric inpatient facilities);
    - for covered persons in the service area. The standards must be realistic for the community served, the delivery system utilized and clinical safety.
  - At least annually, an MCHIP must collect and analyze data to measure performance against the standards developed for geographic accessibility. The analysis must be used to identify opportunities for improvement and the MCHIP must undertake interventions to improve performance. The effectiveness of any interventions implemented must also be measured against the standards.
- **West Virginia**
  - Beginning January 1, 2021, a health carrier must file with the commissioner for review prior to or at the time it files a newly offered network, in a manner and form defined by rule of the commissioner, an access plan meeting the requirements of this section.
  - The health carrier must prepare an access plan prior to offering a new network plan and must notify the commissioner of any material change to any existing network plan within 15 business days after the change occurs.
  - The access plan must describe or contain at least the following:
    - The health carrier's network, including how the use of telemedicine or telehealth or other technology may be used to meet network access standards, if applicable;
    - The health carrier's process for monitoring and assuring on an ongoing basis the sufficiency of the network to meet the health care needs of populations that enroll in network plans;
    - The health carrier's efforts to address the needs of covered persons, including, but not limited to, children and adults, including those with limited English proficiency or illiteracy, diverse cultural or ethnic backgrounds, physical or mental disabilities, and serious, chronic, or complex medical conditions. This includes the carrier's efforts, when appropriate, to include various types of ECPs in its network
  - A PBM's network must not be comprised only of mail-order benefits but must have a mix of mail order benefits and physical stores in this state.
- **Wisconsin**
  - Health carriers in the state of Wisconsin that offer defined network plans must provide covered benefits by plan providers with reasonable promptness with respect to geographic location. Geographic availability shall reflect the usual medical travel times within the community.

# Cigna

- Carriers must develop an Access Plan to meet the needs of enrollees who are members of underserved populations. If a significant number of enrollees of the plan customarily use languages other than English, the defined network plan must provide access to translation services fluent in those language to the greatest extent possible.
- Carriers should ensure that an enrollee has adequate choice among participating providers and that the providers are accessible and qualified. Defined network plans must have sufficient number and type of providers to adequately deliver all continued services based on the demographics and health status of current and expected enrollees under the plan. Preferred provider plans must also have a sufficient number and type of participating providers to adequately deliver all covered services, including at least one primary care provider and a participating OB/GYN accepting new enrollees.
- Carriers must file an annual certification with the commissioner by August 1 of each year certifying compliance with Wisconsin's access standards for the previous year. The certification must be submitted on the state-prescribed form and signed by an officer of the company. See the attachment below for a sample certification form, which may also be found on the Wisconsin OCI website at <http://oci.wi.gov/ociforms/26-110.pdf>

<b>Policy Name</b> Network Adequacy Provision (NAP)	<b>Policy Number</b> UM-20
<b>Business Segment</b> Healthcare, Behavioral Health,	
<b>Initial Effective Date:</b> 05/01/04	<b>Policy Committee Approval Date(s):</b> 7/24/18; 12/11/18; 12/10/19; 4/14/20; 8/13/20; 10/13/20
<b>Replaces Policies:</b> CGMM-III-35 Network Adequacy Provision (NAP)	

## Purpose:

The purpose of this policy is to establish a consistent process for evaluating and responding to network adequacy authorization requests when it is perceived that a qualified, participating health care professional or provider is not available to provide medically necessary services within a reasonable distance from the customer's home or within reasonable appointment availability timeframes.

## Policy Statement:

The Network Adequacy Provision establishes criteria for authorization of services by a non-participating health care professional at the in-network level of benefits when an appropriate qualified, participating health care professional is not available to provide medically necessary services within a reasonable distance from the customer's home or within reasonable appointment availability timeframes. If at least one (1) participating health care professional is not available within the established mileage specifications from the customer's home, or in certain states, from the customer's home or work location, the customer may receive authorization to visit a non-participating health care professional at the in-network benefit level. Requests for network adequacy are subject to medical necessity review of all supporting information in order to make a determination of coverage.

*Note: customers may be required to cross county and/or state boundaries to obtain services from a participating health care professional.*

*Network Adequacy Provision exception requests from providers outside the distance criteria defined by this policy should not be approved if an in-network provider who can perform the same or other appropriate medically necessary services to diagnose or treat the individual is identified within the distance the customer is willing to travel to receive care from the proposed OON provider, no matter how many miles that may be. For example, if the proposed OON provider is 100 miles away, and there is an INN provider capable of providing the same or other appropriate medically necessary services to diagnose or treat the individual less than 100 miles away, the NAP exception should not be granted.*

*The mileage radius for an in-network provider be expanded to the distance the customer is willing to travel for the out of network provider (if beyond the limits set in the policy).*

*Maternity Services – Network Adequacy provisions do not apply if a licensed in network provider e.g. Obstetrician, Certified Midwife, Nurse Practitioner capable of rendering services is available.*

# Cigna

The Network Adequacy Provision does not apply to the following:

- Services provided by a tertiary facility
- Transplant-related services
- Urgent/emergent care
- Telemedicine
- Proton Beam Centers

## Definitions:

**Behavioral health care professional:** any physician or other licensed practitioner, (a social worker or psychologist), accredited, or certified to perform behavioral health services.

**Tertiary facility:** a facility at which highly specialized medical care is provided, usually over an extended period of time that involves advanced complex and state-of-the art procedures and treatments performed by medical specialists frequently but not always academic medical centers attached to a University Medical School

**Individual Family Plan (IFP):** A customer who has enrolled with Cigna either through the Federally Facilitated Marketplace (FFM), State Based Marketplace (SBM) or directly through web, phone or broker not through a group or employer plan.

**Telemedicine:** The use of electronic information and telecommunications technologies to support long-distance clinical healthcare, patient and professional health-related education, public health and health administration.

**Network Savings Plan (NSP):** Health care professionals who have agreed to discounted charges for customers in Cigna administered health plans

For purposes of this policy "customer" means an individual participant or member.

## State/Federal Compliance:

See Attachment B: State Network Adequacy Mileage Requirements, Attachment C: State Appointment Availability Requirements and PROVIDER NETWORKS: NETWORK ADEQUACY COMMON BULLETIN that can be found on the following website- <https://icomply.lpa.cigna.com/icomply/pages/CIForState.aspx?st=CB>

## Procedure(s):

- A. Health Care Professional Network Adequacy Provision Request
  1. A request is received for authorization of services, not based on personal preference or convenience for customer, for a non-participating health care professional at the in-network benefit level
  2. Staff will conduct research establishing the availability of like services with participating healthcare professionals with established mileage radius or equidistant to non-participating healthcare professionals.
    - IFP Customers: The State Mandated radius, or when silent CMS radius, will be utilized in the search for provider

# Cigna

3. The clinical staff will review the request for medical necessity and if medically appropriate, will approve. If request cannot be approved, it will be referred to the medical director for review and final disposition.
4. The medical director will review the request and all supporting clinical information to determine if it is medically necessary to utilize the non-participating health care professional.
5. Once a decision has been made, authorization determination is documented in the UM system of record and determination letters are issued in accordance with accreditation and regulatory requirements.

**Network Adequacy approval of a health care professional does not include or imply an approval of a Facility Network adequacy exception. Should the need arise for the use of an out-of-network facility Network Adequacy for the facility as well as the procedure/admission would need to be separately established**

B. Facility Network Adequacy Provision Request:

1. Physician/behavioral health care professional/provider authorized to provide services at the in-network benefit level is requesting to perform the services at a non-participating facility
  - If the Physician/behavioral health care professional/provider has privileges at a participating facility and that facility offers the services requested, the Physician/behavioral health care professional/provider is asked to use that facility. If the physician/behavioral healthcare professional/provider refuses, the request is sent to the medical director for further review
  - If the Physician/behavioral health care professional/provider does not have privileges at a participating facility but has privileges at a Network Savings Plan (NSP) facility that offers the services, the request is reviewed for authorization to a NSP facility prior to authorization to a non-participating facility
  - If the Physician/behavioral health care professional/provider does not have privileges at either a participating facility or a NSP facility that offers the services, the request is reviewed for authorization to a non-participating facility
  - Approved inpatient authorizations to non-participating facilities are referred to the Inpatient Case Manager (IPCM) assigned to non-participating facilities for inpatient case management.
  - Out of network facility Network Adequacy Provision (NAP) exception request submitted by an IN-Network Provider must go to MD for review
2. Request is for authorization to provide services at the in-network benefit for an out-of-network facility
  - If the services are available in-network within the customer's defined service area, the request is medically reviewed and denied and the customer is given contact information and encouraged to utilize appropriate in-network health care professionals
  - If the services are not available in-network, the request is approved to the out-of-network facility if the services are available there

- PCP - 30 miles or 90 minutes
- A Health Care Service Organization (HCSO) may require an enrollee to travel a greater distance in area to obtain covered services from a contracted provider than the enrollee would have to travel to obtain equivalent services from a non-contracted provider, except where a network exception is medically necessary. Nothing in this Section creates an exception to R20-6-1918 through R20-6-1920, which are the sections on Geographic Availability in Suburban Areas, Rural Areas, and Travel Requirements.
- If the HCSO prior-authorizes services that require an enrollee to travel outside the HCSO service area because the services are not available in the area, the HCSO shall reimburse the enrollee for travel expenses. Except as provided under R20-6-1904(E) (6), an HCSO is not required to reimburse an enrollee for travel expenses the enrollee incurs to obtain covered services in-area. R20-6-1904 is as follows: The HCSO shall provide appropriate coverage for out-of-area emergency care to an enrollee traveling outside the area served by the HCSO.
- **California**
  - Hospital – within 15 miles of customer’s work or home address
  - PCP– within 15 miles of customer’s work or home address
  - A plan operating in a service area with a shortage of one or more types of providers shall assist enrollees by locating available and accessible contracted providers in neighboring service areas and when medically appropriate to non-contracted specialty providers. Enrollee costs for accessing medically necessary services shall be limited to applicable plan co-pays, etc. This provision doesn't prohibit a Plan's from accommodating an enrollee's preference to wait for a later appointment from a specific contracted provider.
  - If a Health Care Service Plan has no participating specialists to provide a covered benefit, the Health Care Service Plan must arrange for a referral to a specialist with the necessary expertise and ensure that the covered person obtains the covered benefit at no greater cost to the covered person than if the benefit were obtained from a participating specialist.

  - If there is not a sufficient number of type of participating provider or facility to meet access requirements, the insurer must ensure through referral by the primary care provider or otherwise, that the customer obtains the covered service from a provider or facility within reasonable proximity of the customer at no greater cost to the customer than if the service were obtained from network providers and facilities.
  - An insurer may use facilities in the neighboring service areas to satisfy a network access standard if one of the following types of facilities is not in the service area, or if the insurer can provide substantial evidence of good faith efforts on its part to contract with the facilities in the service area.
  - This applies to the following types of facilities:
    - Tertiary hospitals;
    - Pediatric community hospitals;
    - Specialty or limited hospitals, such as burn units, rehabilitative hospitals, orthopedic hospitals, and cancer care hospitals;
    - Neonatal intensive care units; and
    - Facilities providing transplant services, including those that provide solid organ, bone marrow, and stem cell transplants.
  - An insurer must establish and maintain adequate arrangements to ensure reasonable proximity of network providers and facilities to the business or personal residence of customers, and located so as to not result in unreasonable barriers to accessibility. Insurers must make reasonable efforts to include providers and facilities in networks in a manner that limits the amount of travel required to obtain covered benefits.
  - Insurers must ensure that such customers may obtain covered medical and behavioral health services from the Indian health care provider at no greater cost to the customer than if the service were obtained from network providers and facilities, even if the Indian health care provider is not a contracted provider. Insurers are not responsible for credentialing providers and facilities that are part of the Indian health system. Nothing in this subsection prohibits an insurer from limiting coverage to those health services that meet insurer standards for medical necessity, care management, and claims administration or from limiting payment to that amount payable if the health service were obtained from a network provider or facility.

### Part 6 of Vermont Rule H-2009-03 Opportunities for Improvement

Cigna has met our standard access requirements for all specialties and therefore, there is no improvement specifically identified.

Cigna's network is currently open and accepting providers and facilities that meet credentialing requirements and will agree to contract terms.

If a participating provider is not available within a reasonable time or distance, Cigna's policy allows members to see non-participating providers within a reasonable distance and they will be covered and approved at the appropriate benefit level.

# National Committee for Quality Assurance

has awarded

*Cigna Health and Life Insurance Company - Vermont*

*Commercial PPO*

an accreditation status of

**Accredited**

for service and clinical quality that meet or exceed NCQA's rigorous requirements for consumer protection and quality improvement.
